

GALAXY  
CONSTRUCTION &  
INDUSTRIAL

TRA: **SOLID**  
Speed Rating: **A2**

The Galaxy Beefy Baby Severe Duty Solid is the first of the solid frame range, and is available in two variants: with and without a slot. The hole in the tire provides better cushioning and thus better driving comfort. The vent also helps with cooling compared to a regular steel frame. The tire is ideal for harsh environments such as waste processing, metal recycling, and construction and demolition sites. SDS provides up to 40% higher load capacity than pneumatic tires.
