

**GALAXY
LAWN GARDEN & TURF**

TRA: **R-3**
 Speed Rating: **A3**

Popular on lawn tractors, commercial mowers & utility equipment used on turf where movement must not lead to damage of the turf. Damage caused owing to steering on turf is greatly reduced due to the unique shoulder design & block alignment. Salient features: -
 a) Unique Shoulder Lug Design - The lug at the shoulder wraps the tread around to the sidewall thus ensuring no turf damage and ease while turning
 b) Superior Tread Block Geometry- Designed to enlarge the contact area where the tread meets the turf; improving stability traction & weight distribution.
 c) Unique Alignment of Blocks -Lateral zig-zag block tread design provides excellent steering stability and improved lateral traction and enables self-cleaning
