

ALLIANCE  
AGRICULTURE  
  
TRA: I-3  
Speed Rating: C

Alliance 328 HS (High Speed Flotation I-328) is designed with good self-cleaning characteristics, which is suitable for on and off-the-road agricultural service on trailers and implements. The high load capacity and low inflation pressure of the tire results in high degree of agricultural soil protection, as well as low rolling resistance on both, on and off-road uses. The tire is available in heavy and regular duty versions of flotation tires. Its strong nylon construction and compounds ensure long life

IMPLEMENT - 500/50R17
