

GALAXY  
EARTHMOVER &  
MINING

TRA: L-5  
Speed Rating: A2

Working in severe conditions and off-road surface mining while carrying heavy loads demands superior dependability, excellent traction, durability and cut resistance. Galaxy LDSR 510 is an all-steel radial tire specially constructed with premium tread compounds to withstand mighty challenges and provide long tire life. The extra deep tread offers excellent performance and its non-directional block tread pattern delivers superior traction, abrasion and cut resistance on rocky and gravel surfaces assuring higher efficiency.
