

**PRIMEX LOGSTOMPER XTREME  
IMPROVED BEADS  
MAKE THE BEST  
EVEN BETTER.**

**PRIMEX**  
EXPERT FOR THE EXTREME

# NOT JUST A BUNDLE OF WIRE

Today's loggers—and their skidder tires—are under more stress than ever. Bigger loads. More lateral motion. And more pressure to keep loads moving...fast.

That all puts unimaginable pressure on the bead of a skidder tire. That bundle of steel cables has to put up with the torque of the biggest, meanest machines in the forest. It has to maintain its grip on the steel rim while lifting trees, skidding tons of logs, and slamming into rocks and stumps.

That's not just a bundle of wire. It's high technology and pure power, and we've taken them both to a new level in the new bead package for the Primex Logstomper Xtreme.

## **DUAL BEAD**

For extra grip

## **UNIQUE BEAD WRAPPING PROCESS**

Eliminates “wild wire”

## **NEW MANUFACTURING PROCESS**

Builds thicker bead reinforcement

## **HEAVY-DUTY REINFORCEMENT COMPOUND**

Resists friction and shelling

## **MODIFIED BEAD ANGLE**

Improves seating and grip

To get the best performance from your Logstomper Xtreme bead package, operate the tires nearest the load—rear tires on skidders, front tires on cutters—at 45 psi. Then you're locked and loaded...and ready for action.
