

NEW EXTREME 78/45-32 26 PLY FORESTRY FLOTATION TIRE FOR ULTIMATE PERFORMANCE

- Increased ground contact for more traction and more flotation
- Extreme Tread design for better traction and excellent self-cleaning
- Ideal for operations considering an expensive upgrade to dual 35.5-32s
- Mounts onto existing 73/44-32 wheels
- Increased OD means less axle torque and less wear on your machinery
- Also available in 73/44-32 and 73/50-32 sizes

PRIME X
EXPERT FOR THE EXTREME

LOG STOMPER XTREME

The Primex Logstomper Xtreme is specially designed for forestry applications. The variable lug angle provides enhanced hillside stability much more than a standard (23° lug angle) tire. Excellent self-cleaning, high-traction and low soil compaction makes it the perfect choice for the most demanding forestry conditions.

CONSTRUCTION

- Steel belts provide excellent puncture protection
- Strong carcass construction ensures high load carrying capacity and ability to withstand the most extreme environments

Dual Bead with rim shield rubber provides protection against bead damages

Heavy under-tread and thick sidewall construction provides protection against penetration, cracks and other damages

TREAD DESIGN

- Variable Lug Angle
- Improved traction
 - Good self-cleaning
 - Enhanced hillside stability (than 23° lug angle)

- Wider lug at the center
- Ensures larger footprint and high ground contact area leading to reduced soil compaction and enhanced stability

Plateau layers act as mud breakers ensuring excellent self-cleaning

SPECIAL COMPOUND

Safeguards the tire against cuts, punctures and other damages
