

Yokohama Rubber Environmental Policy

Following the principle of dealing fairly with society and valuing harmony with the environment, we shall embody “Caring for the Future” for the global environment and assert our world-class strengths in technologies to protect it.

1. Under leadership of top management, Yokohama Rubber will globally initiate environmentally-conscious measures in all of its activities, and will put this into practice across its entire organization.
2. Yokohama Rubber will respect international norms, deepen communication with its stakeholders and will strive to make contributions to local communities and to society as a whole by promoting collaboration to working with the value chain.
3. Yokohama Rubber will strengthen its environmental management system and will aim to achieve zero environmental risk by continually striving to help improve the environment by using approaches to mitigate its impact with chemical substance management, prevent environmental pollution, and reduce sensory nuisances.
4. Yokohama Rubber will comply with all related laws, regulations, and agreements as well as endeavor to continually implement activities that help improve the environment.
5. Yokohama Rubber will strive to prevent global warming, conserve energy and resources as well as promote resource recycling, aiming at the fulfillment of a recycling-oriented and low-carbon society.
6. Yokohama Rubber will strive to conserve biological diversity and use biological resources sustainably in its business activities.
7. Yokohama Rubber will promote harmony with local communities as part of its commitment to work with and become a company that is trusted by local communities.
8. Yokohama Rubber shall publish this policy and make it known to all.
