#### Annex

#### **General Information**

- There may be additional surveillance visits carried out during the validation period
- · Audits conducted at approval holders may lead to audits at assembly plants and vice versa
- For vehicles classified as special purpose vehicle (SPV), clearance to stated subjects will be using dispensations contained within SPV annex of framework directive
- The necessity to notify VCA conformity of production and type approval of manufacturer representatives due to changes to new and cleared legislative frameworks remains the responsibility of the approval holder.
- Statement covers assembly plants listed. Additional sites may be covered by alternative statements
- Validity of this Compliance Statement for the duration stated is dependent on ISO/IATF certificates being supplied before their expiry.

#### Please note:

This Compliance Statement is issued by and is the property of the Vehicle Certification Agency, 1 The Eastgate Office Centre, Eastgate Road, Bristol BS5 6XX, UK and is to be returned on formal request

VCA requires that type approval holders stay with their original Technical Service and that moves from one Technical Service to another are only possible in exceptional circumstances. In the case where this is required please consult the appropriate VCA team.

It is a legal requirement for the approval holder to ensure they have a representative in the appropriate country whether they hold clearance to approvals to the GB Scheme or UK(NI) Scheme. This is only a requirement where the approval holder is not based in the required country. This requirement will be checked at future audits and applications for Type Approval.

It is the responsibility of the approval holder to notify the VCA Conformity of Production department of any changes of their manufacturer's representative, where this has changed to meet the above requirement or otherwise. Not doing so could result in delays to receiving approval certificates or compliance statements from VCA.
